## CORPORATE MEMBERSHIP

The Biomedical Engineering Society welcomes corporations in the field of BME to apply for membership. The membership levels benefit the company as well as the individual employee.

Corporate Memberships provide a great option for members of the BME industry to advertise their products and services to a larger audience as well as provide their employees with avenues to keep up to date with the latest in scientific advances.

*"Corporate memberships create significant value for biomedical industry partners, most notably in that all employees of a member company can register for BMES events at discounted rates. In addition to the new investment, licensing, product development, and talent recruitment opportunities that BMES offers, corporate memberships provide yet another example of how the society has taken great strides to enhance value for industry and strengthen interactions with the academic, governmental, and clinical sectors."*

Ben Noe, Project Manager  
Surgical Innovations, Minimally Invasive Therapies Group  
Medtronic  
Chair, BMES Industry Committee

*"BMES corporate memberships are an excellent avenue for BMES to realize its vision of becoming the networking connection between our industry members and our academic members! It also offers our industry partners direct access to cutting edge science and a ready pool of potential employees."*

Richard T. Hart, BMES President  
Edgar C. Hendrickson Professor and Department Chair  
Department of Biomedical Engineering  
The Ohio State University

*"Corporate memberships offer numerous benefits to biomedical companies. It is the best avenue to take advantage of the many resources offered by BMES, including those in product development, investment, licensing, and talent recruitment. Additionally, employees can register for the BMES Annual Meeting at a discounted rate. Employees want to know that their employer is invested in their career and future. This is an excellent opportunity to show that."*

Sara Muldoon, CCDS  
Technical Service Specialist  
St. Jude Medical
